15. (Internal Use Only - GLC) Sam Goldberg, State Department, called about a resolution of inquiry (actually there are two, H. Res. 536 and 537) concerning the Mayaguez incident. According to Goldberg, the resolution poses a number of questions, all of which State is able to answer except for number 7. This item raises a question of whether there were any covert operations being conducted in the Cambodian area after April of 1975. Goldberg feels that State would have to give a qualified answer to this question (i. e., State knows of no covert activities...) and then either refer Representative Thomas E. Morgan (D., Pa.) to the Agency or indicate that State is following up with other appropriate agencies.

16. (Unclassified - BAA) Received a call from Mr. Shay, of the Senate Select Committee staff, saying that [REDACTED] suggested he call us to make arrangements for him to review the Marchetti transcript and court papers. After checking with [REDACTED] I told Shay that he should call Mr. Hank Knoche, Assistant to the Director, with his request. Mr. Knoche's office was advised.

19. (Internal Use Only - WPB) David Bushong, Office of Legislative Affairs, Department of Justice, called to share with me some intelligence he has obtained on S. 495, the "Watergate Reorganization and Reform Pact." He said that he had some indications that the sponsors of S. 495 may be disposed to back down on the sweeping provisions in Title I of that bill and are considering an amendment in the nature of a substitute. He asked that I keep my eyes and ears open and share with him anything I was able to learn from the Hill on S. 495 and its prospects.

20. (Unclassified - WPB) Received a call from Werner Brandt on the personal staff of Representative Thomas Foley (D., Wash.). Representative Foley is Chairman of the House Committee on Agriculture. Brandt said that the Chairman thought that it would be a good idea if the members of the committee and several of the staff could be given an overview of the international sugar problem by the Agencies "economic people." Specifically the committee is interested in USSR beets, Eastern Europe beets, Cuban sugar production, and the dealings of major foreign sugar firms. He was interested in setting this up, if possible, around July 10 or 11. He asked about the possibility of an unclassified paper on the international sugar problem to supplement any oral presentation. I told Brandt that I would get back to him on his request.
